The Editorial Office of Orapuh Journal is issuing a Corrigendum for the article "*Patient expectations regarding the quality of care offered in health centres of the Kwango Provincial Health Division: A contribution of the capability approach*" (Vol. 7, Iss. 1, e1404) to reflect title refinements, methodological restructuring, structural table conversions, and the addition of standard administrative and compliance statements following post-publication author review.

The following corrections have been approved by the Editorial Board and incorporated into the updated article:

Title & Front Matter

Title Refinement: Shortened for precision to "Patient Expectations Regarding Quality of Care in Health Centers of Kwango: A Capability Approach".

Publisher Location: Updated to include complete operational address ("Published by Orapuh, Inc., F. Gaye Res., Sukuta-Jamisa, Greater Banjul, The Gambia.").

Keywords: Realigned to highlight core conceptual tags ("Expectations, patients, quality of care, health centers, Kwango Provincial Health Division, capability approach").

Methodology & Qualitative Presentation

Methodological Framework: Enhanced articulation of Amartya Sen's capability approach and its operationalization via inductive thematic analysis using NVivo software and Donabedian's Quality Assessment Framework (Structure, Process, and Outcome).

Qualitative Results Structure: Transformed unstructured text lists/boxes from the original publication into four

comprehensive, professionally formatted summary tables:

- Table 1: Socio-Demographic Summary of Focus Group Participants (F1-F13).
- Table 2: Structural Dimensions of Care: Patient Expectations and Perceptions.
- Table 3: Process Dimensions of Care: Communication, Collaboration, and Ethics.
- Table 4: Outcome Dimensions of Care: Symptom Management and Pain Relief.

Back Matter & Institutional Declarations

The following standard compliance statements were omitted from the original publication and are now formally added:

Use of AI Statement: The authors declare that no artificial intelligence (AI) or AI-assisted technologies were used in the study design, data collection, data analysis, or preparation of this manuscript.

Authors' Contributions: Detailed CRediT author contribution roles added for conceptualization, investigation, formal analysis, visualization, writing, project administration, and supervision.

Data Availability Statement: Datasets generated and analyzed during the current study are available from the corresponding author upon reasonable academic request.

Funding Statement: This research received no specific grant or external financial support from any funding agency in the public, commercial, or non-profit sectors.

The online PDF and HTML versions of the original article

have been updated to reflect these corrections. These changes do not alter the primary conclusions of the study. The Editorial Office and authors apologize for any inconvenience caused.

Conflicts of Interest: The Editorial Board declares no conflicts of interest regarding the issuance of this correction notice.
