

Corrigendum to: Use of Transfer Techniques for Women Giving Birth With Postpartum Haemorrhage (PPH) by Midwives in the Urban-Rural Health Zone of Bunia: Experiences, Difficulties, and Perspectives of Midwives

Published: August 25, 2026 *Volume 7, Issue 7, Article e1468* *Cross-Reference Link:* <https://doi.org/10.4314/orapj.v7i1.6>

The Editorial Board of *Orapuh Journal* is issuing a formal correction notice for the article authored by Neema, A. D., Mukandu, B. B. L., and Omanyondo, O. M., published in January 2026 (*Orapuh Journal*, 7(1), e1406).

Due to a language translation error from French to English during manuscript preparation, the medical device referred to as “**shock-absorbing trousers**” in the abstract and “**anti-shock trousers**” in the main body text was incorrectly translated from *pantalon anti-choc / vêtement anti-choc*. To align with official clinical guidelines from the World Health Organization (WHO), the correct nomenclature for this life-saving technology is the **Non-pneumatic anti-shock garment (NASG)**.

To preserve the archival integrity of the primary scientific literature, the original published PDF manuscript remains unaltered. This citable corrigendum notice serves as the permanent, public corrective addendum to that record. The authors were formally invited by the editorial office to provide a response regarding this determination but did not reply within the designated timeframe.

For full clinical analysis and contextual discussion regarding the use and impact of the NASG in emergency obstetric transfer protocols, readers are strongly encouraged to consult the accompanying commentary by [Miller \(2026\)](#) in this issue.

Data Availability Statement: Data sharing is not applicable to this article as no new datasets were generated or analyzed.

Ethical Approval: Not applicable. This document is an administrative editorial correction and does not involve primary empirical research or human subjects.

Conflicts of Interest: The Editorial Board declares no conflicts of interest regarding the issuance of this correction notice.
